# 2010 Plastic and Reconstructive Surgery Registrars' Conference

We're looking forward to your attendance at the 2010 Plastic and Reconstructive Surgical Registrars' Conference!

We've got an outstanding lineup of conference presenters who will cover the entire range of our discipline. International presenter Joe Gruss will be visiting from the United States to present on several craniofacial topics.

The American In-service Examination has been included in the program for the second year as well as the practice examination and the ASAPS Essay Competition. We also invite you to take advantage of the many opportunities to interact with trade, colleagues, and mentors.

The social program has been chosen with discretion to make the best of the Sydney CBD, waterfront, and the great dining options they have to offer.

It's going to be a great week; we're looking forward to catching up at the welcome reception.

See you then!

*2010 Organising Committee*

## **Our International Guest Speaker, Joe Gruss M.B., B.CHIR.**

Dr Joe Gruss, obtained his MD in Johannesburg, South Africa and completed general and plastic surgery training as well as a fellowship in head and neck oncological and craniofacial surgery. Now living in Seattle, he has established a state-of-the-art craniofacial surgical program; the Craniofacial Centre is now the busiest program of its type in Northern America. He has pioneered in the application of craniofacial techniques to the care of facial trauma and the use of ridge internal fixation of the craniofacial skeleton.

Proud to be a partner  
in excellence!

Avant is proud to be working in partnership with ASPS as their preferred medical indemnity provider.

We understand that starting out in practice can be difficult. This is why we provide a 50% premium reduction in the first year of practice and a 25% reduction in the second year.\*

With value like this – why would you make any other choice. For more details call our dedicated ASPS service team.

Call 1800 428 268

[www.avant.org.au](http://www.avant.org.au)

\*Conditions apply

IMPORTANT: Avant Mutual Group Limited ABN 58 123 154 898 (Avant) insurance policies are issued and underwritten by Avant Insurance Limited, ABN 82 003 707 471, AFSL 238 765 and subject to approval. Insurance cover is subject to the terms and conditions of the PDS. Before deciding to purchase please read the PDS to determine if this product is appropriate for you. The policy and PDS are available at [www.avant.org.au](http://www.avant.org.au) or by contacting us on 1800 128 268.

## General Information

The 2010 Registrars' Conference will be held at the Sydney Harbour Marriott Hotel, from Friday 5 March to Friday 12 March 2010. SET 2 trainees need only attend from Monday 8 March to Friday 12 March.

Attendance at the conference is compulsory for SET 2-5 Plastic and Reconstructive Surgery Trainees in Australia and New Zealand. International medical graduates are also invited to attend. Your registration forms and payment can be forwarded to the ASPS office and is due by **15 February 2010**.

The convener of the 2010 Registrars' Conference is Mr Gavin Sandercoe who has developed a comprehensive education program for the 5 day conference. Please see the program schedule for more details.

All trainees are required to present a paper at the state level prior to the conference. Cash prizes will be awarded for the Best Clinical and Best Scientific Papers presented at the Registrar's Conference on 11 March 2010.

## Accommodation

Fantastic accommodation arrangements are available at the conference venue, the Sydney Harbour Marriott Hotel, 30 Pitt Street, Circular Quay, is Sydney's premier harbourside hotel, surrounded by spectacular waterside Harbour views of the Sydney Opera House and Sydney Harbour Bridge. Recently renovated with a contemporary feel the Marriott Hotel is situated in the heart of the Sydney CBD, the shopping delights of the Pitt Street Mall, and the 'Rocks' entertainment cultural precinct.

With 550 luxurious guest rooms and 20 technologically enabled meeting rooms, the Sydney Harbour Marriott Hotel offers guests an intimate and sophisticated venue for both business and leisure.

To take advantage of the great deals arranged with the Marriott hotel, please contact Daniel Hoffman on (02) 9259 7000 and quote booking reference: **2010 Rego** to obtain the negotiated room rates.

## Registration is due 15 February 2010

Registration forms and payment can be forwarded to the Registrars' Conference Secretariat:

## American In-Service Examination Friday 5 March from 7.30am to 2.00pm

The American Society of Plastic Surgeons is offering this valuable online examination to our trainees for the second year in a row. This exam will be mandatory for SET3-5 trainees and is on offer to International Medical Graduates. The cost of this exam will be covered by registration fees and sponsorship.

Updated yearly, the In-service Examination provides the most up-to-date information on the American core curriculum of plastic surgery. The exam offers trainees the opportunity to challenge themselves and assess their knowledge of the entire scope of plastic surgery. Relevant questions in basic science will be included in each of the four categories.

Equal emphasis is placed on:

- Comprehensive
- Cosmetic/Breast
- Craniomaxillofacial
- Hand/Extremities

**Location: Cliftons, Level 2, 200 George Street, Sydney**

## ASAPS Essay Competition Friday 5 March 4.00pm to 6.00pm

All attendees are invited to participate in the ASAPS Essay Competition. The writer of the best essay will receive \$3000 in prize money which can be used to attend a training or conference event. This essay competition is sponsored by Mentor and is not compulsory for trainees.

**Location: Marriott Hotel, Sydney Harbour**

## Practice Examination Saturday 6 March 9.00am to 4.00pm

This SET5 training experience will be held at the St Vincent's Hospital in Darlinghurst. Attendance is mandatory for all trainees who will be taking the Fellowship Exam in 2010. SET4 trainees wishing to observe should register their interest early as space is limited.

**Location: Outpatient's Clinic, St Vincent's Hospital, 390 Victoria Street, Darlinghurst.**

“

I have had incredible success with Rationale; one patient with particularly bad Rosacea came to see me for a rhinoplasty as the condition was so severe and she felt this was her last resort. Instead of opting to operate I introduced Rationale to her skincare routine. At her follow-up visit the improvement was so considerable neither of us felt it was necessary to operate. Now I have a patient for life. I couldn't have asked for a better result for my client or my business.”

Mr Ian Holten, Plastic Surgeon

## GOOD MEDICINE. GOOD BUSINESS. IT MAKES SENSE. COME JOIN US!

Evidence-based, scientific formulas deliver optimal results and increased patient satisfaction. Our unique business partnership model means less stress and greater profitability for you and your practice.

## Social Program

There will be a welcome reception and drinks held on Sunday 7 March 2010 at 6:00pm in the Henry Lawson Room at the Marriott Hotel. An ASPS desk will be set up to register your attendance at the conference.

The formal Conference Dinner will be held on Thursday 11 March 2010 at the Wildfire Restaurant. Pre-dinner drinks will commence at 7:00pm.

The welcome reception and the conference dinner are included in the registration costs. Please indicate on the registration form if you wish to attend and if you have any specific dietary needs.

## Sydney Highlights

Sydney is a rare jewel - sparkling both day and night - and the city reflects the Australian personality - a bit brash, a bit cheeky but warm, outgoing and friendly. And it knows how to party! There is something for every visitor - first class hotels, restaurants, beaches, theatre, sight seeing, nightlife and its overall vibrancy.

The **Sydney Harbour Bridge** is one of Sydney's most famous landmarks, locally known as the "Coat Hanger" took eight years to build, including the railway line, was completed in 1932. The construction of the bridge was an economic feat as well as an engineering triumph. Prior to the bridge being built, the only links between the city centre in the south and the residential north were by ferry or by a 20 kilometre road.

The **Rocks** is one of the most-visited parts of Sydney. It is not hard to see why. Nestled at the foot of the Sydney Harbour Bridge and on the western shores of Sydney Cove, The Rocks is the foundation place of Sydney and Australia, and is of enormous historical significance. It is often described as "Sydney's outdoor museum".

The **Sydney Opera House**, situated on Sydney Harbour at Bennelong Point, is considered by many to be one of the wonders of the modern world. Designed by Jørn Utzon and constructed under some controversy, it was opened in October 1973.

The **Royal Botanic Gardens**, are just a short walk around the water's edge from the Sydney Opera House, and are one of the most breathtakingly beautiful settings you will see anywhere, with the gardens filling an area of land between the harbour and the eastern part of the central business district. The gardens sit on the side of an undulating piece of land and the harbour views from up on the hill are superb. There are large trees with a wonderful shade canvas making this the best spot imaginable to stop and have lunch - sitting on the grass and taking in the harbour views.

**vactherapy**  
Innovation & Design in Dressings

**V.A.C. GranuFoam Silver® Dressing**  
An antimicrobial silver foam dressing specifically engineered for use with V.A.C.® Therapy, providing rapid and effective microbial kill - 99.97% of pathogens eliminated within the first 30 minutes, including MRSA.

**V.A.C.® Simplace™ Dressing**  
With fewer steps required and faster application, the V.A.C.® Simplace™ Dressing will make your V.A.C.® Therapy dressing application easier and faster than ever.

**V.A.C.® GranuFoam™ Bridge Dressing**  
This is a ready made bridging solution which allows for quicker and easier application of V.A.C.® Therapy on suitable wounds in challenging body locations.

# E-POR™ Customised Craniofacial Implants

E-POR Implants are made from porous high density polyethylene (HDPE). Each customised implant is designed by the surgeon and Anatomics and made by Porex Surgical. Templates of complex shapes can be modified and confirmed with the surgeon on the BioModel prior to production. A BioModel is supplied with all Customised E-POR Implants.

## Benefits

- **Facilitates tissue integration**  
Porosity permits adhesion of the soft tissue which helps to secure the implant in place
- **Simple to modify**  
Allows surgeon to perform minor modifications with a scalpel and shape or feather the edges of the implant after fixation
- **Fixation flexibility**  
No need to pre-drill holes. Select fixation sites intra-operatively. Screw heads can be sunk flush with the implant surface
- **CT and MRI compatibility**  
Radiolucent and non-magnetic for compatibility with post-operative imaging

## Features

- Made from high density polyethylene
- Open pore structure allows tissue integration
- Implant thickness varies depending on the patient's bone thickness and defect location
- Excellent biocompatibility
- Can be cut or carved with a sharp instrument without collapsing the pore structure
- Fully reimbursed on the Prosthetic Schedule with no gap to your patients

## Sterilisation

- E-POR implants - supplied sterile
- BioModel - by STERRAD Hydrogen Peroxide Plasma or Ethylene Oxide Gas or Gamma irradiation

\* Consult the product information enclosed with each implant for additional information, indications, contraindications and precautions.
